

# Home

Easy to use for charging,  
just plug the powerbank to you lwatch, no need the wires.

# For taveling Only one powerbank

One Powerbank keep your lwatch full power during travel.

# Blockchain 101

[Blockchain Technology](#) is a distributed ledger technology that allows for secure, transparent, and tamper-proof transactions. It is based on a series of blocks, each containing a list of transactions. These blocks are linked together in a chain, and each block contains a cryptographic hash of the previous block, making it difficult to alter the data. Blockchain is used in a variety of applications, including cryptocurrencies, supply chain management, and digital identity. It is a decentralized system, meaning that no single entity has control over the network. Instead, the network is maintained by a group of nodes, each of which has a copy of the ledger. This makes the system more resilient to attacks and more transparent to users. Blockchain is also a secure system, as the data is encrypted and the transactions are verified by the network. This makes it a good choice for applications that require high security and transparency. Blockchain is a new technology that is still in its early stages, but it has the potential to revolutionize many industries. It is a decentralized system that is secure, transparent, and tamper-proof. It is a good choice for applications that require high security and transparency. Blockchain is a new technology that is still in its early stages, but it has the potential to revolutionize many industries. It is a decentralized system that is secure, transparent, and tamper-proof. It is a good choice for applications that require high security and transparency.

## About Us

10+ Years Experienced Professional Manufacturer of Customized Cables.

2000 M<sup>2</sup>  
Factory space with 10years of production experience

100+  
Employees

OEM/ODM  
Support cable customized

ISO13585  
Certified Medical Accessory Manufacturer

## Certificate

We followed international ISO management Standard to make our custom cables, medical cables and chargers with good quality and best price.

ISO 13485

FCC

CE

ROHS
