Home

Easy to use for charging,
just plug the powerbank to you lwatch, no need the wires.

For taveling Only one powerbank

One Powerbank keep your lwatch full power during travel.

Blockchain Technology

[Blockchain Technology](#) is a distributed ledger technology that allows for secure and transparent transactions. It is based on a chain of blocks, each containing a list of transactions. The blocks are linked together in a chronological order, and each block contains a cryptographic hash of the previous block. This makes it difficult to alter the data once it has been recorded. Blockchain technology is used in a variety of applications, including cryptocurrencies, supply chain management, and digital identity. It is a key component of the digital economy and is expected to continue to grow in the coming years.

About Us

10+ Years Experienced Professional Manufacturer of Customized Cables.

2000 M²
Factory space with 10years of production experience

100+
Employees

OEM/ODM
Support cable customized

ISO13585
Certified Medical Accessory Manufacturer

Certificate

We followed international ISO management Standard to make our custom cables, medical cables and chargers with good quality and best price.
