The image displays 12 individual product certificates of conformity, organized in a 2x6 grid. Each certificate is issued by HTT America, Inc., located in San Francisco, CA 94103. The certificates are for various models of the HTT 1000 Series, specifically the HTT 1000-1000. Each document includes a header section with the company name and address, followed by a 'Certificate of Conformity' title. Below this, there are fields for 'Model No.', 'Serial No.', 'Date of Issue', and a signature. A large 'CE' mark is prominently displayed on each certificate. The bottom row of certificates also features a small table at the bottom right, likely indicating test results or compliance status. The overall layout is clean and professional, with a white background and black text.
