## Product Characteristic:

- The same wire and elbow are relatively less prone to bending and have a longer lifespan
- Convenient use and more reasonable space utilization during charging

Many data cable heads are connected to the cable due to bending during use, resulting in a layer of rubber cracking on the surface, which can lead to poor charging contact, electrical leakage, and even inability to charge. And our This Dual Elbow Design USB Cable can to some extent avoid this situation.

As a reliable [USB 2.0 Cables China Manufacturer](#), Goochian provides customers with many high-quality USB products, covering a wide range of industries such as mobile phones, computers, industry, healthcare, and automobiles. For example, this [USB To 4pin Molex 39012040 Programming Cable](#), is use for computer; [USB A Male To Female Extension Anti-Theft Shoulder Bag Cable](#) suit for backpack, makes it more convenient for backpackers to charge their phones during their travels

OEM ODM is available, please do not hesitate to contact us for any customization requirement.
