USB 3.0

USB 3.0 is a standard for data transfer, offering faster speeds than USB 2.0. It is commonly used for connecting external storage devices, keyboards, and mice. The standard is supported by most modern operating systems and hardware. USB 3.0 cables are typically black and have a distinctive T-shaped connector. The standard is also used for power delivery, allowing for faster charging of devices. USB 3.0 is a widely used and reliable standard for data transfer and power delivery.
