[Dupont 2.54mm Pin Connector](#) USB 5pin

OEM ODM service is available. We can provide you with the most professional and efficient service.

USB 3.0

USB 3.0 is a standard for data transfer, offering faster speeds than USB 2.0. It is commonly used for connecting external storage devices, such as hard drives and flash drives. The standard is supported by most modern operating systems, including Windows, macOS, and Linux. USB 3.0 cables are available in various lengths and colors, and are often used for connecting devices to a computer or a network. The standard is also used for connecting devices to a power source, such as a USB hub or a power adapter. USB 3.0 is a widely used standard for data transfer and power delivery.
