## USB 3.0

USB 3.0 is a standard for data transfer, offering faster speeds than USB 2.0. It is commonly used for connecting external storage devices, keyboards, and mice. The standard is supported by most modern operating systems and hardware. USB 3.0 cables are typically black and feature a blue USB Type-A connector and a USB Type-C connector. The standard is also used for power delivery, allowing for faster charging of devices. USB 3.0 is a widely used and reliable standard for data transfer and power delivery.

## About Us

10+ Years Experienced Professional Manufacturer of Customized Cables.

2000 M<sup>2</sup>  
Factory space with 10years of production experience

100+  
Employees

OEM/ODM  
Support cable customized

ISO13585  
Certified Medical Accessory Manufacturer

## Certificate

We followed international ISO management Standard to make our custom cables, medical cables and chargers with good quality and best price.
