

Our **1.0mm Dual 6P Male Plug Medical Therapy Cable** is engineered for precision, safety, and high performance in medical and physiotherapy settings. Designed to connect electrode pads to TENS or EMS machines, this lead wire offers **low resistance**, **secure fit**, and **long-lasting durability**—perfect for professional use in hospitals, clinics, and rehabilitation centers.

Key Benefits:

- In-house tooling and mold design for fast customization
- OEM/ODM private label and packaging options available
- Fast lead times and responsive B2B service
- Compatible with most global brands of TENS/EMS units
- Eco-friendly materials and RoHS compliant

In addition to this solution, we also offer a range of **custom medical cable assemblies** tailored to specific clinical and wearable applications:

- Click [**OEM Electrotherapy TENS Unit Lead Wire Manufacturer**](#) to know more

All our cables can be customized with your branding, colors, cable length, connector type, and packaging preferences. Whether you're developing medical-grade cables for hospital equipment or wearable health technology, we're here to support your product journey from prototype to mass production.
