

## Premium 3.9mm Dry Electrode Male Snap Connector with 24 Contact Pins

Our 3.9mm dry electrode male snap connector is engineered for stable, durable, and high-conductivity connections in medical therapy equipment. The 24-pin configuration supports multi-channel therapy applications such as TENS (Transcutaneous Electrical Nerve Stimulation) and EMS (Electrical Muscle Stimulation) devices.

### Key Features:

- 24 high-precision contact pins made of conductive alloys with corrosion-resistant finishes for optimal electrical performance.
- Standard **3.9mm snap** diameter for universal compatibility with most dry electrode pads and therapy cables.
- Robust locking mechanism ensures secure and reliable connections during therapy sessions.
- Constructed with medical-grade plastic housing offering durability, safety, and biocompatibility.
- Supports full customization including wire length, color, packaging, and labeling options tailored for **OEM and ODM** clients.
- Manufactured in our ISO-certified factories located in Dongguan and Shenzhen, China, guaranteeing consistent quality and timely delivery.

### Applications:

- Medical Electrotherapy Equipment (TENS, EMS)
- Physical Rehabilitation Devices
- Neuromuscular Stimulation Units
- Diagnostic Medical Equipment
- Beauty and Muscle Therapy Devices

Goochain stands as your trusted manufacturer, factory, supplier, and vendor for high-quality electrode connectors. We provide custom solutions for global medical device makers and distributors.
