

## Product Features

This [car cigarette lighter power cable](#) is a versatile power solution designed for mobile and portable devices requiring multiple power options. It draws power from a standard DC interface (DC 12V-24V input) and simultaneously provides USB Type-C voltage (supporting PD fast charging protocol) and standard DC voltage to meet diverse device power needs.

Ideal for **medical devices**, **industrial inspection terminals**, **outdoor portable power**, vehicle electronic instruments, and other scenarios requiring stable and reliable power supply.

The [3-in-1 Starlink Mini Power Cable](#) is a versatile and high-performance charging and extension solution for powering **Starlink Mini satellite terminals** in mobile and off-grid environments. Designed with **USB-C**, **DC Barrel**, this cable allows you to easily adapt to multiple power sources.

# WIDELY USED

## Key Features:

**output design:** Supports simultaneous USB-C (PD fast charging) and 5.5x2.1mm DC interface power output;

**Durable materials:** Highly flexible cable, anti-aging, tangle-resistant, high-temperature resistant;

**Safety design:** Built-in fuse and voltage protection circuit to safeguard both devices and vehicle electrical systems;

**Flexible customization:** Supports custom interface specifications, cable lengths, housing colors, and logo printing;

**Reliable manufacturing credentials:** ISO 13485 and ISO 9001 certified, ensuring quality assurance;

**Industry compatibility:** Widely used for medical instruments, power tools, inspection terminals, vehicle DVRs, and more.
