

Product feature

This [**DC2.35 Safety Male Plug to SR to Metal Contact Terminal Cable**](#) is engineered for secure and durable DC power transmission, especially where anti-slip and stable connection is required. The integrated **SR (Strain Relief)** molding protects against bending stress, prolonging the lifespan in frequent-use environments.

The **metal contact terminal** end is customizable to your specific application, whether for medical devices, power modules, or control systems.

We offer **custom design (OEM/ODM)** including molding, connector selection, and cable type based on your unique electrical and mechanical needs. Whether you need a [medical-grade DC cable](#), a **power supply harness**, or a **custom SR injection-molded wire**, we have the **engineering and production capacity** to support your solution from prototype to mass production.
