

Product feature

This [**DIN 5P Male to dual 3.5mm electrode snap female spring cable**](#) is engineered for reliable and safe bio-signal or current transmission in clinical therapy and diagnostics. It connects stimulation units to electrode pads efficiently while offering stretchable flexibility to accommodate patient movement.

Key Features

- **High-Flex Coiled Design:** Spring cable resists tangling and stretches as needed during patient use.
- **Durable DIN 5P Connector:** Precision-molded large 5-pin DIN plug with SR (strain relief) for stable connection.
- **Dual 3.5mm Snap Electrode Jacks:** Compatible with various snap-on electrode pads used in EMS/TENS units.
- **Medical-Grade Materials:** Biocompatible TPU and copper wire suitable for patient-contact environments.
- **OEM/ODM Customization:** From connector type to cable length, tailor-made solutions for your equipment.
- **Certified Manufacturing:** Built in ISO 13485 and ISO 9001 certified facilities to ensure top quality and compliance.

We offer **OEM/ODM services** for [spring coiled medical cable](#) solutions. Whether you need adjustments in connector type, length, color, or packaging, we provide fast prototyping and small or large batch production.

Custom Options

- Cable length (10cm ~ 100cm or custom)
- Connector type
- Color & jacket materials
- Custom logo, labeling, and packaging

Why Choose Us?

We are an **OEM/ODM manufacturer** specializing in medical cables and electrode leads. With our in-house R&D, tooling, injection molding, and assembly capabilities, we support full customization from prototype to mass production. Our facilities are **ISO 13485 & ISO 9001 certified**, ensuring traceable, high-quality production that meets international standards.

Company Introduction
