

This [**Electrode Medical Cable**](#) features a **2.5mm 8-pin male connector** on one end and **dual 2.0mm electrode pins** on the other. It is specially designed for compatibility with a wide range of **physiotherapy machines, TENS units, EMS muscle stimulators, and rehabilitation equipment**.

Key Features:

- Universal compatibility with most 2.5mm 8-pin physiotherapy connectors.
- Dual 2.0mm snap/plug output for use with standard electrode pads.
- Soft, flexible cable for comfortable patient use.
- Custom cable length, color, and packaging available.
- Bulk production with strict quality control and traceability.

Manufacturer Advantage:

- 10+ years of experience in **medical-grade cable design and production**.
- In-house tooling, molding, and injection facilities for fast turnaround.
- All products tested for continuity, insulation resistance, and signal integrity.
- International logistics support and technical consultation for OEM clients.

This [2.0mm electrode lead wire TENS cable](#) using high-grade TPU/PVC insulation and precision-molded connectors, the cable ensures **stable electrical conductivity** and **long-lasting durability** even in intensive clinical environments.

We are a direct **manufacturer with ISO 13485 and ISO 9001 certifications**, offering **OEM/ODM development capabilities** for global healthcare brands and medical device suppliers. Our engineering team can assist in custom connector development and rapid prototyping.
