

The Lemos Plug to SR to [ECG Clip](#) and 2.0 Electrode Pin Lead Wire is made from high-quality conductive materials, ensuring stable and reliable signal transmission. The product includes the following components:

- **Lemos Plug:** Designed for medical devices, ensuring safe and reliable electrical connections.
- **SR Interface:** Used for connecting ECG devices, providing efficient signal transmission.
- **ECG Clip:** Secures the electrode to the patient's skin, ensuring stability during use.
- **2.0 Electrode Pin:** Provides excellent conductivity, ensuring smooth signal transmission between medical devices and patients.

All components meet international safety standards for medical devices, making them suitable for use in hospitals, clinics, and home healthcare settings. They provide high-quality electrical connections and signal transmission for various electrotherapy and ECG systems. More additional options, explore our [Medical Electrode Cable 3.5mm female snap to ECG clip cable](#). If you have specific requirements, feel free to contact us for customized solutions tailored to your needs.

Product Features

1. **High-Quality Materials:** Made from premium conductive materials, ensuring stable and clear signal transmission.
2. **Strong Compatibility:** Widely compatible with various ECG monitoring devices, electrotherapy machines, and other medical electrical equipment.
3. **Safe and Reliable:** Every component undergoes rigorous testing to ensure safety during use.
4. **Easy Installation:** Simple design for easy installation and removal, saving time and improving workflow efficiency.
5. **Durability:** All components are tested for durability, ensuring long-term reliable performance.
