

Product feature

The [POGO PIN Wireless Charging Cable](#) combines a USB Type-C male connector with a compact inductive charging coil module and precision POGO PIN interface. It is designed to provide reliable contact-based wireless charging for small medical electronics, wearables, IoT terminals, and portable devices.

Key Features:

- **Universal Compatibility:** USB Type-C input supports a wide range of power sources including power banks and adapters.
- **Precision PCB Design:** Multi-layer PCB structure ensures stable power transfer and secure connectivity via POGO PIN contacts.
- **Customizable Configuration:** Cable length, voltage, and connector orientation can be fully customized to meet your application needs.

Application Scenarios:

- Wearable health/therapy equipment (e.g., portable EMS/TENS units)
- Wireless charging modules for miniature devices
- Magnetically aligned docking solutions
- Industrial or medical-grade smart modules

Why Choose Us?

We are an OEM/ODM **manufacturer with over 10 years of experience** in custom cables and [wireless power interfaces](#). With our in-house R&D and engineering team, we support full turnkey development from concept to mass production. Our solutions are trusted by global OEM/ODM clients across healthcare, wearables, and industrial automation sectors.
