### Product Description:

Ensure reliable and uninterrupted performance of your **Point of Sale (POS) thermal receipt printer** with our **Powered USB 24V to 5V cable**. This versatile **power converter cable** is designed to step down 24V USB power to a stable 5V USB output, providing your **POS printer** with the correct voltage for efficient operation. Whether you're upgrading an existing system or setting up a new point-of-sale terminal, this cable offers an easy, plug-and-play solution for powering your **thermal receipt printers, POS devices**, and other compatible USB-powered peripherals.

### Key Features:

- **Input Voltage:** 24V USB (compatible with a range of POS systems and devices requiring 24V USB power)
- **Output Voltage:** 5V USB (for powering 5V USB thermal printers and POS devices)
- **High Compatibility:** Perfect for **USB-powered receipt printers, POS printers**, and **thermal printers** that need a stable 5V power source.
- **Durable Construction:** Built with high-quality, reinforced materials to withstand everyday use in high-demand environments like retail, restaurants, and hospitality businesses.
- **Long Cable Length:** Standard 2-meter cable for flexible placement options, with custom lengths available to fit your setup needs.
- **Plug and Play:** No need for additional drivers or software installation. Just connect to your printer and power source for an instant, reliable connection.
- **Compact Design:** A slim, space-saving cable that helps reduce clutter and simplifies your workspace by eliminating the need for separate adapters.

### Why Choose This Powered USB Cable?

This **24V to 5V USB power adapter** is an essential accessory for any **POS thermal printer** that requires a 5V input but operates in environments where 24V USB power is more commonly available. This **power conversion cable** ensures that your **receipt printer, POS receipt printer**, and other USB-powered peripherals receive optimal power for smooth, uninterrupted operation. Ideal for environments where reliability and performance are paramount, such as busy retail stores, coffee shops, restaurants, or any business that relies on fast and accurate receipt printing.

### Applications Include:

- **Thermal receipt printers** in POS systems
- **USB receipt printers** and other thermal printer models
- **Point of Sale printers** that use 5V USB input for power
- Retail and hospitality industries that require reliable, compact power solutions for their POS terminals
- **POS terminals** and **USB-powered peripherals** in high-traffic environments

### **Package Includes:**

- 1 x **PoweredUSB 24V to 5V Cable** for POS printer
- 1 x Quick start guide (optional, for troubleshooting)
