

Trade Terms	FOB Shenzhen / Guangzhou / Hongkong
Production Capacity	500,000PCS/Month
Payment	T/T, PayPal.
Delivery Time	3-7 working days for making sample. 10 to 15 working days for production.
Packing	Standard Export Cartons/Custom Cartons
Shipping	By sea, By air or by express delivery (DHL/UPS/FEDEX)
MOQ	500PCS
Place of Origin	Dongguan, Guangzhou, China
Certification	CE,FCC,ROHS,REACH,UKCA

60W **PD Fast Charging Spring Loaded Magnet Cable** USB 3.1 Type C to 18pin Magnetic Pogo Pin Cable Assembly

- Anti-fall: Use magnetic interface to make it easier to disassemble the device;
- Long life: up to 100,000~200,000 cycles and more functions connected charging;
- Waterproof design: Excellent waterproof design can be achieved, and the host base can be dustproof and waterproof (IPX8)
- Fast charging: supports high current (5A-30A) design; fast charging, shorter operating time;
- Save spares: The female header with PCB adapter can achieve Pogo style and SMT DIP bonding jumper connections;
- Magnet positioning: Utilize magnets and structures to achieve dual circuit protection to achieve distinction;
- Environmental requirements: Excellent corrosion grade (48H-120H) to meet harsh environments.

Application areas:

- 1. Mobile device charging and data transmission:** **Magnetic connectors** are commonly used for charging and data transmission of smartphones, tablets and laptops. The convenience of these connectors allows users to easily plug and unplug devices while also reducing the risk of accidentally disconnecting.
- 2. Laptop charging:** Some laptops use magnetic charging connectors. This design allows the charging cable to quickly detach when the device is accidentally pulled, thereby reducing the risk to the device.
- 3. Audio equipment:** Some headphones and audio equipment use magnetic connectors to make it easier to connect and disconnect the device. These connectors also automatically position the correct polarity when connected, ensuring accurate transmission of audio signals.
- 4. Magnetic stands and bases:** Magnetic connectors are also used to make stands, bases, and accessories to support equipment. These brackets can be used in car mounts, desktop mounts, wall mounts, etc. to make the device easier to install and uninstall.
- 5. Industrial and medical equipment:** In industrial and medical equipment, magnetic connectors can be used to quickly connect sensors, probes, optical fibers and other equipment for easy

maintenance and replacement.

6. Power transmission and charging: Magnetic connectors can also be used in wireless charging applications, such as wireless charging bases, allowing users to easily place their devices on the charging base for charging.
