

Product feature

The [USB Type-A Male to USB Type-C Male Cable with Ferrite Core](#) is engineered for demanding applications that require **stable power delivery and interference-free data transfer**. Unlike standard USB-C cables, this model integrates a **high-performance ferrite core**, effectively suppressing high-frequency noise and ensuring **clean signals**.

Key Features:

- **EMI/RFI Protection:** Built-in ferrite bead reduces signal loss and interference.
- **Durable Design:** Reinforced strain relief and high-flex cable for long service life.
- **Versatile Applications:** Compatible with laptops, smartphones, power banks, medical instruments, and industrial devices.
- **Custom Engineering:** Length, connectors, jacket materials, and shielding options can be tailored to customer requirements.
- **Certified Quality:** Produced under **ISO 13485 (medical devices)** and **ISO 9001 (quality management)** standards.

This [USB Type-A to Type-C data cable](#) is designed for businesses that demand reliability, efficiency, and durability. Featuring an integrated ferrite core, it ensures stable data transfer and clean power delivery by reducing EMI/RFI interference, making it ideal for medical devices, industrial systems, and consumer electronics. Built with reinforced strain relief and premium materials, the cable guarantees long service life and consistent performance.

Why Choose Us as Your Cable Manufacturer?

- **Certified Quality:** ISO 13485 & ISO 9001 certified factory
- **OEM & ODM Service:** Fully customizable connectors, cable length, and design
- **Engineering Support:** Strong R&D capability to support new product development
- **Manufacturing Strength:** Over 10 years experience in cable manufacturing
