

## Product features

The [USB Type-C Male to 24V PoweredUSB Male Cable](#) bridges the gap between modern USB-C ports and legacy devices requiring high-voltage 24V power through PoweredUSB. Ideal for **point-of-sale terminals, vending machines, kiosks, and industrial or medical-grade electronics**, this cable delivers both power and performance in a compact, robust design.

The cable features industrial-grade materials, including tinned copper conductors and a reinforced jacket, to ensure reliable and safe operation even in demanding environments. Our connectors are precisely molded for high mating cycles and secure fit, minimizing downtime in critical systems.

As a **direct manufacturer with ISO 13485 (medical device quality) and ISO 9001 (general quality)** certifications, we offer end-to-end OEM/ODM customization services. Whether you need short production runs, technical consultations, or bulk manufacturing, our team provides complete engineering and supply chain support.

Choose a cable solution built for real-world performance and certified reliability.

We also have many types of [USB-C to PoweredUSB Cable](#), please contact us to learn more information.

Choose us as your trusted supplier for industrial and medical-grade power cables with consistent quality and technical expertise.
