

Product feature

This [USB Type-C to 4 × 3.5mm Magnetic Snap Medical Cable](#) is engineered for **multi-channel physiotherapy systems**, allowing simultaneous connection of multiple electrodes while maintaining stable and low-loss signal transmission.

The **magnetic female snap connectors** ensure fast electrode replacement and reliable contact, reducing setup time for therapists and improving user experience. The cable is constructed with **medical-grade TPU or PVC insulation**, offering excellent flexibility, abrasion resistance, and biocompatibility.

As a professional [medical cable manufacturer](#), we provide **in-house R&D, tooling, and engineering support**. From conductor structure and shielding design to magnet strength and connector molding, every detail can be customized to match your device requirements.

Typical Applications

- TENS therapy devices
- EMS muscle stimulation systems
- Electrotherapy rehabilitation equipment
- Multi-channel physiotherapy machines
- OEM medical electronic devices

The [3.5mm magnetic electrode cable](#) is designed for multi-channel electrotherapy and rehabilitation devices, providing stable and reliable signal transmission. The magnetic snap connectors allow quick, secure attachment and easy electrode replacement, reducing wear from repeated plugging and improving user convenience.

Why Choose Us as Your Cable Manufacturer?

- **Certified Quality:** ISO 13485 & ISO 9001 certified factory
- **OEM & ODM Service:** Fully customizable connectors, cable length, and design
- **Engineering Support:** Strong R&D capability to support new product development
- **Manufacturing Strength:** Over 10 years experience in cable manufacturing
- **Low MOQ** support for samples and prototyping
