

Introducing our latest innovation - a USB Type-C Male to [PoweredUSB Female Cable](#) capable of delivering 24V or 12V power output, specifically designed for POS systems, payment terminals, and kiosk solutions.

Unlike traditional USB-A or proprietary connectors, this cable features a modern USB-C input—making it compatible with newer generation devices, laptops, and industrial hubs. Whether you're integrating payment peripherals in retail environments or powering specialized equipment, our cable ensures stable voltage delivery and plug-and-play performance.

As a professional cable manufacturer, we provide full OEM & ODM services, supporting:

- Custom voltage outputs (12V/24V)
- Personalized cable lengths and colors
- Unique connector molds or angled heads
- Private labeling or packaging

This cable is ideal for system integrators, POS hardware providers, and businesses looking for durable, factory-direct solutions that meet precise power and form factor requirements.

In addition to this product, we also offer other POS power and data transmission solutions, such as the [Y-Split PoweredUSB Output Cable](#), ideal for powering multiple peripherals from a single power source.
